## A Thrive at Home Consult helps you:

- Prioritize your renovation decisions and investments
- Understand the kinds of changes, large and small, that might help make living in your home easier in the future.

## Our service might be a good fit if:

- You are considering renovations and plan to live in your home as you grow older.
- You are in your "Golden Years" and want to be smart about the types of renovations you'd like to make,
- You are concerned about specific safety or design features in your home, like stairs or doorways.
- You aren't certain that you want to pursue renovations, but would like a professional to help provide guidance and advice.

## What's included

- A ninety minute session and walk through of your home. Our time together will focus on talking about how you live in your home now, your future plans, and any of your concerns regarding your home's maintenance, layout, and ease of use.
- A personalized report including:
  - A summary of opportunities and challenges for your particular space
  - Suggested changes, organized from easiest to most involved.
  - Design features or changes to consider specifically if engaging in a larger remodel.

How can you live  
in your home  
longer without  
sacrificing its  
style and beauty?
